CERAMIC CARE AND MAINTENANCE

For everyday cleaning, use a mild dish soap or a vinegar-based cleaner and warm water with a soft cloth or non-scratching sponge. Rinse thoroughly after cleaning and dry with a soft dry cloth. For harder to clean stains use a 50/50 water to bleach solution or a non-abrasive cleaner. For stubborn stains, use Bar Keepers Friend sparingly. Rinse thoroughly and dry with a soft cloth.

THINGS TO AVOID:

Do not use harsh abrasives or caustic cleaners containing ammonia or alkalis to clean sink surfaces. Do not use straight or undiluted bleach solution. Do not use materials such as scouring pads, steel wool, scouring powder or abrasive liquid cleaners when cleaning sink surfaces. Do not use paint removers, oven cleaners, highly concentrated drain cleaners, or aggressive chemical solutions to sink surfaces. *Use of these materials will void the warranty.*

NOTICE: When using drain cleaners or clog removers in the drain, rinse thoroughly with water after contact.

For indoor use only.
