Install the Fixture

1. Secure the mounting plate to the junction box.
2. Determine the wanted height or look of the fixture with the provided stems and assemble them by screwing them together.
3. Feed the fixture wires through the stem assembly and screw the stem assemblies onto the top of the fixture.
4. **For standard ceilings:** Unscrew the hex nuts and washers and remove the link and loops from the canopy. Feed the fixture wires through the hang straight and canopy, then screw the hang straight to the stems. Place the canopy onto the hang straight, then tighten the hex nuts and washers to secure in place.
5. **For sloped ceilings:** Unscrew the hex nuts and washers and remove the hang straights from the canopy. Feed the fixture wires through the link and loop, then the canopy, then screw the link and loop to the stems. Place the canopy onto the links and loops and tighten the hex nuts and washers to secure in place.
6. Connect the fixture to a suitable ground in accordance to local electrical codes.
7. Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.
8. Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.
9. Neatly place all the wires into the junction box, place the canopy onto the mounting studs, and secure it in place by screwing the cap nuts onto the studs.
10. Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage Information.
